

Occupational Safety and Health is

INSafe's bottom line: If your business qualifies for INSafe's INSHARP participation, you will become part of a distinguished and select group of Indiana employers who voluntarily take the proactive measures necessary to ensure employee safety and health. INSafe is confident that Indiana employers will discover that developing a well-managed safety and health program is beneficial for all affected. It will not only protect workers from injuries and illnesses, but will reduce Workers' Compensation costs, improve employee morale, and increase worksite productivity. These are the very kinds of success stories that employers and worksites across the nation have experienced.

Other Proactive Programs: Large employers interested in taking a more proactive approach to reducing occupational illness, injury, and fatalities are strongly encouraged to contact The Voluntary Protection Programs of Indiana.

"The Indiana Safety and Health Award Recognition Program remains as INSafe's best tool to encourage cooperation and collaboration of Indiana's workplaces. The teamwork of management, employees, and government stressed in INSHARP serves as the best means to promote lasting change in a firm's safety culture."

Quindaro E. Cheatham
Deputy Commissioner—INSafe
Indiana Department of Labor

Program

Indiana Small Businesses are INSHARP!

Eligibility: The Indiana Safety and Health Recognition Program recognizes small employers working towards exemplary safety and health management systems. Indiana businesses with fewer than 250 employees onsite, and no more than 500 employees nationwide, are eligible to participate!

The Perks of Participation: Participation is a step ahead and a proactive approach to managing work-related injuries and illnesses. Successful companies will receive recognition from the State of Indiana as an INSHARP participant. Participants will also be granted a one-year exemption from IOSHA inspections!

Participation Overview:

1. Make a commitment to occupational safety and health.
2. Undergo a **FREE** safety and health consultation within a reasonably established timeframe.
3. Correct all hazards identified by the INSHARP consultant within reasonably established timeframes.

4. Establish and maintain **ALL** of the elements of a proactive safety and health program. This includes the following:

- ♦ Management, leadership, and employee involvement in development and implementation of safety and health objectives, goals and policies.
- ♦ Worksite analysis to review accidents and injury histories, recognize injury and illness trends, and identify occupational hazards.
- ♦ Implement hazard procedure and control programs.
- ♦ Seek training for employees, supervisors, and management in safe and health-conscious work practices.
- ♦ Inform INSafe when hazards have been corrected. Ensure elements that are consistent with a proactive safety and health program have been implemented.
- ♦ Agree to request additional consultation visits if working conditions or processes change that may result in new unidentified hazards.

- ♦ Post notice advising your employees of your participation in INSHARP and identify hazards that have been corrected.

Levels of Participation:

- ♦ Standard, includes employers with less than 250 employees in high-hazard industries. An employer that manages multiple sites may participate in the Standard level if the total workforce does not exceed 500 employees. To qualify there must be an implementation of all the elements of an effective safety and health management system as established by the "1989 Safety and Health Program Management."
- ♦ Inspection Deferral is available to an employer that meets **ALL** requirements, corrects all hazards, and show promise of achieving safety and health milestones. Inspection Deferral lasts up to 18 months.
